

Based on a 35-year simulation of the chloride initial concentration (Figure 5-13) in the marine dredge spoils being allowed to attenuate naturally due to precipitation recharge. Compares measured chloride with predicted chloride at MW-315, MW-319, MW-323, MW-414, and MW-415. Regression $v^2 = 0.94$

MAINE YANKEE RCRA CLOSURE - Bailey Point CMS Report
